AGAINST ANARCHISTS

Bill to Exclude Them Practically
Determined Upon.

SOME STRONG POINTS

To Kill or Assault the President Is
Death, and Any Officer, Fine and
Imprisonment—The Pro-
ceedings of Congress.

Washington, Jan. 24.—The details of a bill directed against anarchy and anarchists has been practically determined upon by a report of the committee of members of the house judiciary committee. The measure will provide the death penalty for an attempt to kill or assault the president or any one in line of succession to the presidency. A party before the fact is to be treated as a principal and an accessory after the fact is punished in a less degree than a principal. Any person who counsels, advises or advocates the assaulting or killing of any officer of the United States shall be fined and imprisoned. No alien who advocates an overthrow of the organized government or who is affiliated with an organization holding such views will be permitted to enter this country. Provision is made for the punishment of those conspiring in this country against a foreign ruler.

Mason's Resolution Referred.

Washington, Jan. 24.—An unsuccessful effort was made in the senate Thursday by Mr. Mason of Illinois to obtain consideration for a joint resolution which he introduced, extending the thanks of congress to Rear Admiral Schley "for his brave and able conduct while in command of the American fleet at the victorious battle of Santiago."

Mr. Mason's resolution, in addition to the thanks of congress provided that Admiral Schley should be presented a sword, that bronze medals commemorative of the battle of Santiago should be distributed among the officers and men "under the command of Schley during said battle," and that \$10,000 be appropriated to meet the expenses of the resolution.

On motion of Mr. Hale the resolution was referred to the committee on naval affairs.

The resolution introduced by Mr. Teller providing for intervention on the part of this government in behalf of the Boer Commandant Scheepers, sentenced to be executed by the British South African authorities, was postponed indefinitely as Scheepers already had been executed.

Mr. Teller made a brief but caustic speech on the actions of Great Britain in the Boer war and declared if the facts of this case were as he understood them, "Great Britain, in putting Scheepers to death is guilty of a vile assassination."

The consideration of the urgent deficiency bill was completed Thursday, but owing to the lateness of the hour passage of the bill was postponed until to-day.

Industrial Investigation of Trusts.

Washington, Jan. 24.—The industrial committee has completed its final report. On the subject trusts the committee follows closely the lines of recommendations laid down by the president in his annual message. Supervision by the national government is recommended. The most radical specific step suggested is that the books of all corporations should be subject at all times to inspection as are the books of national banks.

There are some recommendations concerning taxation that will attract attention. One of these books to the imposition of certain taxes on private property of the states direct.

Cuban Reciprocity Hearing.

Washington, Jan. 24.—The Cuban reciprocity hearings before the ways and means committee Thursday were devoted chiefly to the cane sugar interests of Louisiana, who are opposing the proposed concessions to Cuba on the ground that it will cripple that industry in that state.

Sympathy for the Boers.

Washington, Jan. 24.—Representative Clark of Missouri has introduced a joint resolution expressing sympathy for the two South African republics and regret over the suffering caused by the war. The resolution expresses the hope that this declaration by congress will influence Great Britain to consider favorably a settlement of the troubles.

China Paid for Seized Bullion.

Washington, Jan. 23.—Secretary Hay has handed Minister Wu a draft on the treasury for \$376,600, being the value of the silver bullion captured by the American marines at Tien Tsin.

Celebrate McKinley's Birthday.

New York, Jan. 24.—President McKinley's birthday, January 29, has been chosen by the New York Board of Trade for its annual banquet. Charles

Emory Smith will deliver an oration on "William McKinley and His Policies," and many other prominent personal friends of the dead president will speak.

Hanging in Mississippi.

Friar's Point, Miss., Jan. 24.—Alf Taylor was hanged here for the murder last spring of James Lucas, a young man and deputy sheriff of this place. The execution, which was conducted without a hitch, was public, and many people witnessed the hanging.

CHEROKEE ENROLLMENT.

July 1 Next the Limit for the Recalcitrants to Register.

Muskogee, I. T., Jan. 24.—The Dawes commission has received the following from Secretary Hitchcock:

"July 1, 1902, is hereby fixed as the date after which no more applications for enrollment in the Cherokee Nation will be received."

The Dawes commission, after repeated attempts to negotiate an agreement with the Cherokees, failing each time caused the secretary to take the matter into his own hands. The order means that if the 3000 recalcitrant full bloods refuse to make application for enrollment before that date they will be forever barred from participating in a share of the public domain.

War on Slot Machines.

Galveston, Jan. 24.—Judge Gillespie of the criminal court delivered a strong charge to the grand jury, in which he declared it was his determination to drive the slot machine from Galveston. He pointed out to the jurymen that it was their sworn duty to indict the keeper of any gaming table, and that according to the law the operators of slot machines were included under that head. "If you have any knowledge that the officers know that these machines are operated, and fail to report the matter to you," said Judge Gillespie, "it is your duty to indict the officers for not discharging their duties."

The Bellville Tragedy.

Bellville, Tex., Jan. 24.—Walter Pennington, one of the actors of Wednesday's tragedy, who was fatally wounded by a bullet in his stomach, died Thursday. His remains were taken to Wallis for burial. The bodies of Milam Odom and his half-brother, Raymond White, were also taken to Wallis. The body of Henry Dittert was taken to Sealy for burial.

Elihu Pennington, the surviving combatant in the tragedy, was arrested on a charge of murder. He appeared before the justice of the peace, waived examination and gave bond.

Cannon to Guard Against Fire.

Austin, Jan. 24.—C. S. Wallis, manager of the Higgins Fuel Oil company, who is attending the railroad commission hearing, arranged with Adjutant General Scurry for the loan of a cannon to be taken to the Beaumont oil fields to be used in the event of a storage tank igniting from lightning or other cause. The gun will be used to fire a solid shot through the base of the tank and minimizing the danger. On account of the great heat, it would be impossible to make the opening any other way.

Shot Himself Accidentally.

Plainview, Tex., Jan. 24.—Mr. Wingo, a newcomer living about ten miles south of Plainview, was found in his house Thursday morning with a bullet in his forehead. He was lying on the floor and the stove was turned over. Under it was a 38-caliber pistol. He was living alone, improving his place, expecting to have his wife come out in a short time. Testimony at the inquest indicates that the shooting was accidental.

Opposes Santa Fe Concession.

Austin, Jan. 24.—General Freight Agent Dunlap of the Sunset Central lines is opposed to the continuation of the authority formerly enjoyed by the Santa Fe at Beaumont in absorbing pipe line charges on oil from Spindletop to the loading racks. Mr. Dunlap stated that he will ask the commission to permanently cancel the former authority because it is a wrong principle to absorb pipe line, wagon line, wagon haul or any other charges. This is in direct opposition to the position of the oil companies.

Married Twelve Times.

Dublin, Ind., Jan. 24.—Philip Veldburg of Madison county undoubtedly holds the record in Indiana for marriages. He is 58 years old and has been married 12 times. He is the father of thirty-two children. It is said Veldburg hopes to live long enough to marry his thirteenth wife. He was born in Germany, and came from a family whose ancestors settled in New York during the colonial period.

Waterworks for Kaufman.

Kaufman, Tex., Jan. 24.—Kaufman is to have waterworks. The contract was let Jan. 22 to O. J. Gorman of Dallas, his bid being \$16,846. Everything is included in this except the water tower. Lieutenant Hood Boone is taking steps towards reorganizing the Navasota military company.

Four million, five hundred thousand dollars in gold was shipped from Nome during the season just ended.

The new leader of Tammany, Lewis Nixon, is credited with a scheme to enter the Texas oil field with a \$10,000,000 company for the purpose of running pipe lines to the principal cities of the state and to New Orleans, and to establish a line of tank steamers for ocean traffic.

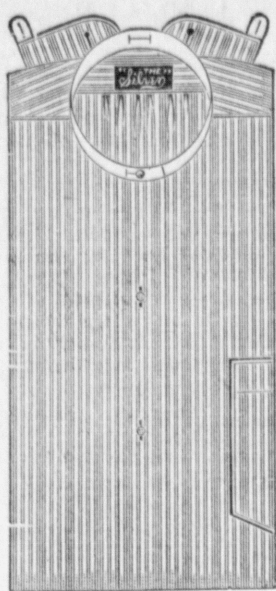

According to information which has reached Austin from the quicksilver district of Brewster county the new 50-ton furnace has been "blown in" and the output of quicksilver will be greatly increased by the operation of this new concern. The development of the district continues at a most gratifying rate and plans are on foot for the erection of other large furnaces for the treatment of the ores.

A Strange Marriage.

This is the most wonderful world and there are some most wonderful beings in it—and out of it. A patriotic widow has just married, spiritually, a Michigan man, who has been dead for a number of years. The ceremony was performed by Mollie Ladell, a noted spiritualistic medium, in the presence of a numerous following of the cult. The courtship is said to have extended over a number of months under the tutelage of Medium Ladell. The ceremony commenced by the singing of "Nearer, My God, To Thee." The medium then went into a trance and invoked the spirit of the dead man. The customary questions were asked the bride and groom and answered in the customary manner, after which the medium pronounced them man and wife. Numerous spirits came to offer their congratulations. After the ceremony the bride took her spirit husband home to a house she had prepared for him. She says she is well satisfied with the match. Did you ever?—Houston Chronicle.

It was believed here that as soon as the new road was connected with the Santa Fe, that trains would be moved south via Conroe, but this connection has been in for a week and the only use being made of it is the facility allowed for handling material. A telegraph station has been instituted ready for use. It is probable that the "G. N." could not perfect traffic and depot arrangements with the Santa Fe, and does not now care to do business until their depot is done. By that time the track should be here also.—Navasota Examiner.

The yearly death rate from consumption is put down at 1,095,000 persons.

The Examiner says Navasota will have a commercial club in a few days.

No objection to Tammany money in Texas, but we don't need any Tammany politics.

Austin is making efforts to rebuild the great dam that give promise of success.

Lieutenant Hood Boone is taking steps towards reorganizing the Navasota military company.

Four million, five hundred thousand dollars in gold was shipped from Nome during the season just ended.

The new leader of Tammany, Lewis Nixon, is credited with a scheme to enter the Texas oil field with a \$10,000,000 company for the purpose of running pipe lines to the principal cities of the state and to New Orleans, and to establish a line of tank steamers for ocean traffic.

According to information which has reached Austin from the quicksilver district of Brewster county the new 50-ton furnace has been "blown in" and the output of quicksilver will be greatly increased by the operation of this new concern. The development of the district continues at a most gratifying rate and plans are on foot for the erection of other large furnaces for the treatment of the ores.

A car or more of stuff was received here this morning that proved to be the fixtures and stock with which the branch jewelry establishment of Goodman & Miller at Bryan was equipped. Mr. Miller, who has been in charge of the Bryan department, simply stated that the firm had concluded to concentrate its efforts and that he

had come home. He had no complaint to make about the other town, it was all right so far as he was concerned.—Navasota Examiner.

THE TWO PICTURES.

Two pictures hung on the dingy wall Of a grand old Florentine hall; One of a child of beauty rare, With the cherub face and golden hair, The lovely look of whose radiant eyes Filled the soul with thoughts of paradise.

The other face was a visage vile, Marked with the lines of lust and guile— A loathsome being whose features fell Brought to the soul wierd thoughts of hell.

Side by side in their frames of gold, Dusty and dingy, cracked and old, This is the solemn tale they told: A youthful painter found one day, In the streets of Rome, a child at play, And moved by the beauty that it bore—

The heavenly look that its features wore— On a canvas, radiant and grand, He painted its face with a master hand.

Year after year on his wall it hung, 'Twas ever joyful and always young, Driving away all thoughts of gloom While the painter toiled in his dingy room.

Like an angel of light it met his gaze, Bringing him dreams of his boyhood days.

Filling his soul with a sense of praise, His raven ringlets grew thin and gray, His young ambition all passed away. Yet he looked for years in many a place

To find a contrast to that sweet face, Through haunts of vice in the night he strayed

To find some ruin that crime had made.

At last, in a prison cell he caught A glimpse of the hideous fiend he sought.

On a canvas weird and wild, but grand, He painted the face with a master hand.

His task was done; 'twas a work sublime,

An angel of joy and a fiend of crime— A lesson of life from the wreck of time.

O crime! with ruin thy road is strewn, The brightest beauty the world has known.

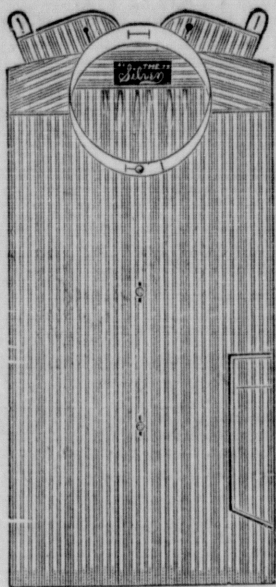

Thy power has wasted till in the mind No trace of its presence is left behind. The loathsome wretch in the dungeon low,

With the face of a fiend and a look of woe—

Ruined by revels of crime and sin, A pitiful wreck of what might have been,

Hated, shunned and without a home, Was the child that played in the streets of Rome. **

Have a Fit in a shirt!

By this we do not mean for you to have an apoplectic stroke with your shirt on—but for you to let us make you a shirt to measure, that we guarantee to fit. This we can positively do and at prices that will suit you—not high prices as are generally looked for in having shirts made to measure but prices about the same as you would pay for a good standard make of shirt. We have a full line of samples (any pattern you could desire) which you are cordially invited to call and inspect, and if they suit you give us an order for a quarter or half dozen and—HAVE A FIT, that will please you. Now is the time to order your spring shirts.

A Strange Marriage.

This is the most wonderful world and there are some most wonderful beings in it—and out of it. A patriotic widow has just married, spiritually, a Michigan man, who has been dead for a number of years. The ceremony was performed by Mollie Ladell, a noted spiritualistic medium, in the presence of a numerous following of the cult. The courtship is said to have extended over a number of months under the tutelage of Medium Ladell. The ceremony commenced by the singing of "Nearer, My God, To Thee." The medium then went into a trance and invoked the spirit of the dead man. The customary questions were asked the bride and groom and answered in the customary manner, after which the medium pronounced them man and wife. Numerous spirits came to offer their congratulations. After the ceremony the bride took her spirit husband home to a house she had prepared for him. She says she is well satisfied with the match. Did you ever?—Houston Chronicle.

It was believed here that as soon as the new road was connected with the Santa Fe, that trains would be moved south via Conroe, but this connection has been in for a week and the only use being made of it is the facility allowed for handling material. A telegraph station has been instituted ready for use. It is probable that the "G. N." could not perfect traffic and depot arrangements with the Santa Fe, and does not now care to do business until their depot is done. By that time the track should be here also.—Navasota Examiner.

Mrs. Allphin, an aged sonville, Dies from Received Wednesday

News was received here yesterday of the death of Mrs. Allphin, mother of Mr. Sam Allphin, yesterday morning at Madisonville, from the effects of being burned on Wednesday last. The particulars of the tragic accident could not be learned. Mr. Sam Allphin, who was here with his wife on a visit Wednesday, hurried home immediately upon hearing of the accident. Word was received from him Friday that he did not think the burn as serious as it appeared at first, but this favorable report was followed yesterday morning by a message from Mr. Allphin to his wife announcing his mother's death. She was an aged and feeble lady. Mrs. Sam Allphin left for Madisonville yesterday.

A CENTRAL MOVE.

Engineer Kellogg Taking a Trip in Grimes County.

Navasota, Jan. 24.—Wednesday afternoon Dr. F. B. Johnson received a telegram, which is said to have requested him to meet a representative of the Houston and Texas Central railway company at Anderson this morning and go with said representative north to Madisonville. This message was signed by Jeff N. Miller, manager of the railway.

This morning, Mr. Kellogg, who is one of the company's chief engineers, arrived in Anderson, met Dr. Johnston and after a short conference with Judge T. C. Buffington, the two promoters departed for Madisonville via Bedias. They took with them letters of introduction from Mr. Denton, editor of the Record, to Hon. M. Y. Randolph and Mr. M. J. R. Jackson, prominent citizens of that place and known to be deeply interested in any railroad scheme to relieve the isolation of Madison county.

The movement is at least suspicious, especially in view of the belief that Manager Miller favors a branch of the Central going out of Navasota or Hempstead toward Palestine or Athens.

THE REST ROOM PLAN.

What the Ladies of Brownwood Are Doing to Provide One.

The Woman's Christian Temperance Union of Brownwood will have a meeting Friday afternoon at the city hall for the purpose of taking necessary steps toward the leasing of a suitable lot and erecting, or leasing with the lot, a suitable building for a "rest room." The business men of the city are most urgently requested to meet with them and assist them in the way of making suggestions that will help toward the consummation of the "rest room" problem. Business men are not wanted at this meeting as contributors to any fund, but to assist in the selection of location and to make suggestions as to the best methods to be pursued.

This is a most laudable undertaking and these ladies who have labored so long toward its completion should have a hearty support from every business man in Brownwood.—Brownwood Banner.

"Down the Rio Grande."

Some years since the citizens of Laredo and New Laredo conceived the idea of fittingly celebrating Washington's Birthday (Feb. 22) by suitable "Mexican-American" fiestas and parades, and from a small source this has grown to a magnificent event, unsurpassed in its splendid surroundings and interesting particulars by anything of a similar nature.

International in its character, located on the border line between the two Great Republics, occurring at a season of the year when business cares press lightly, and at a time when weather conditions in that locality are ideal, this event offers unsurpassed inducements to the pleasure-seeker.

This year the celebration will consist of three days continuous festivities, Feb. 21st, 22d and 23d, the principal day of course being the 22d, and the program, which is very elaborate, will comprise several new and interesting features among which may be mentioned daylight and night bull fights, the latter by electric illumination, torchlight parades, embodying typical Mexican and Indian features, sham battle and capture of the city by the Indians, naval fireworks, military drills and display evolutions, historical pageants and trades display, flower carnival, band and musical contests, etc.

For this occasion low excursion rates will be made to Laredo, also for the benefit of those who desire to see more of Mexican life and customs, arrangements have been made for sale of ten-day excursion tickets to Monterey, permitting stop-over at Laredo in order to take in the International celebration.

Mrs. Allphin, an aged sonville, Dies from Received Wedne. R.

News was received here yesterday of the death of Mrs. Allphin, mother of Mr. Sam Allphin, yesterday morning at Madisonville, from the effects of being burned on Wednesday last. The particulars of the tragic accident could not be learned. Mr. Sam Allphin, who was here with his wife on a visit Wednesday, hurried home immediately upon hearing of the accident. Word was received from him Friday that he did not think the burn as serious as it appeared at first, but this favorable report was followed yesterday morning by a message from Mr. Allphin to his wife announcing his mother's death. She was an aged and feeble lady. Mrs. Sam Allphin left for Madisonville yesterday.

A CENTRAL MOVE.

Engineer Kellogg Taking a Trip in Grimes County.

Navasota, Jan. 24.—Wednesday afternoon Dr. F. B. Johnson received a telegram, which is said to have requested him to meet a representative of the Houston and Texas Central railway company at Anderson this morning and go with said representative north to Madisonville. This message was signed by Jeff N. Miller, manager of the railway.

This morning, Mr. Kellogg, who is one of the company's chief engineers, arrived in Anderson, met Dr. Johnston and after a short conference with Judge T. C. Buffington, the two promoters departed for Madisonville via Bedias. They took with them letters of introduction from Mr. Denton, editor of the Record, to Hon. M. Y. Randolph and Mr. M. J. R. Jackson, prominent citizens of that place and known to be deeply interested in any railroad scheme to relieve the isolation of Madison county.

The movement is at least suspicious, especially in view of the belief that Manager Miller favors a branch of the Central going out of Navasota or Hempstead toward Palestine or Athens.

THE REST ROOM PLAN.

What the Ladies of Brownwood Are Doing to Provide One.

The Woman's Christian Temperance Union of Brownwood will have a meeting Friday afternoon at the city hall for the purpose of taking necessary steps toward the leasing of a suitable lot and erecting, or leasing with the lot, a suitable building for a "rest room." The business men of the city are most urgently requested to meet with them and assist them in the way of making suggestions that will help toward the consummation of the "rest room" problem. Business men are not wanted at this meeting as contributors to any fund, but to assist in the selection of location and to make suggestions as to the best methods to be pursued.

This is a most laudable undertaking and these ladies who have labored so long toward its completion should have a hearty support from every business man in Brownwood.—Brownwood Banner.

DIFFERENT OPINIONS. WILL HONORABLE.

Decision in Shippers' Compress Case Not Satisfactory.

ISSUE IS UNSETTLED.

The Way the Case Terminated Does Not Satisfy the State and the Defendant Believes the Main Question Still at Issue.

Austin, Jan. 24.—There are many conflicting opinions regarding the decision of Judge F. G. Morris of the fifty-third district court in the case of the state against the Shippers' Compress and Warehouse company.

Attorney General Bell is of the opinion that the decision decides the question to the effect that a corporation can buy a competing corporation for the purpose of suppressing competition, without violating the anti-trust law, and upon this point he appealed the case.

On the other hand, A. M. Carter of Fort Worth, representing the Shippers' stated that he did not think the decision was a victory for the defendant company, and it did not decide the question at issue.

THE STATE LOST.

The Shippers' Warehouse and Compress Company Win Their Case.

Austin, Jan. 24.—In the district court here Judge Frank Morris rendered a decision in favor of the defendant in the case of the State of Texas vs. the Shippers' Warehouse and Compress company, which was charged with violating the anti-trust law in the matter of buying up competing compresses. Attorney General C. K. Bell, who was present in court when the decision was rendered, gave notice of appeal in behalf of the state and the questions involved in the case will be tested in the higher courts.

MAY FORCE LANDING.

France to Use Warships to Bring Venezuelan Government to Terms.

Willemstad, Jan. 24.—In spite of protests made by the French consul at Caracas, President Castro has sustained the action of the Venezuelan authorities at La Guayara, who refused to permit M. Secrestat, Jr., of Bordeaux, although the government had previously assured the consul the traveler might embark. It is claimed this incident makes it necessary for the French government to take steps necessary to cause French citizens to be respected, and it is believed the French cruisers, Tage and Suchet, now at Fort de France, will receive orders to go to La Guayara.

France Notified of the Refusal.

Paris, Jan. 24.—The French government has received a message from the French consul at Caracas announcing President Castro has absolutely refused to allow M. Secrestat, Jr., to land in spite of the consul's repeated vigorous protests. The opinion prevails here that France will take steps to force his landing.

Six Hundred Houses Destroyed.

Mexico City, Jan. 24.—Another slight earthquake shook Chilpancingo Thursday and people ran about the streets in despair. But the earthquake did no harm. Official data shows that 614 houses, not including government buildings, were destroyed in the first and second earthquakes. The people continued panic-stricken and fear of continued shocks. Many are leaving to establish themselves in other towns and cities.

Output of Quicksilver.

Austin, Jan. 24.—According to information which has reached here from the quicksilver district of Brewster county the new fifty-ton furnace has been "blown in" and the output of quicksilver will be greatly increased by the operation of this new concern. The development of the district continues at a most gratifying rate and plans are on foot for the erection of other large furnaces for the treatment of the ores.

Two Bad Men Caught.

Guthrie, O. T., Jan. 24.—Two of the highwaymen who participated in the fight at Anadarko when Sheriffs Smith and Breck were killed last week, are believed to have been captured on the new Indian reservation, 15 miles northeast of Newkirk. Evidence in Patrick's Case.

New York, Jan. 24.—Taking of evidence has begun in the trial of Albert T. Patrick on the indictment, charging him with the murder of William Marsh Rice in this city in September, 1900. John H. Wallace, paying teller at Swenson's bank, where Rice had an account, and where one of the checks payable to Patrick's order was presented, was the first witness.

Mr. Wallace identified the check for \$25,000 payable to Albert T. Patrick as the one that had been presented to him by Short who said he came from Patrick. Witness said that in his opinion the signature to the check purporting to be Rice's, was not written by Rice.

Earthquake at St. Louis.

St. Louis, Jan. 24.—Two distinct shocks of earthquake were felt in St. Louis and in many of towns in the immediate vicinity of the city a few minutes before 5 o'clock this morning. The first shock was light, but the second more severe. It awakened persons who had slept through the first shock and got them out of bed. The shocks were accompanied by a rumbling sound.

San Francisco, Jan. 24.—Frank Rakowski, until recently a soldier in the United States army, has been brought here from Fort Columbia, Wash., and taken to the military prison at Alcatraz island, where he will serve a sentence of 10 years for threatening the life of President Roosevelt. He claims he was intoxicated when he made the threat.

The park inspector jumped between them and received the stab intended for the king. The would-be assassin was arrested.

Interstate Commission Looking into the Condition of Roads.

Chicago, Jan. 24.—What is expected to be one of the most interesting sessions of the interstate commerce commission has ever held has begun here. The promised presence of J. J. Hill and E. H. Harriman, who are supposed to know all about the community of interests plan of railroads and who were expected to enlighten the commission on various points concerning the plan, brought a crowd of curious people, chiefly traction men, into the court. Harriman and Hill were not present, but are speeding towards Chicago and will go on the stand when they reach here. It is the expressed purpose of the commission to discover if possible what changes if any, have been created between the general public and the railroads by reason of the "associate management" of the latter. The commissioners also desire to find out if the carrying out of community of interest idea has affected the rate situation in a way contrary to law; or as claimed if it is likely to effect the stability of and non-discrimination in rates for which the commission has long battled.

CONTEST THE WILL.

Huyler Declares His Wife's Estate Belongs to Him by Assignment.

Middletown, N. Y., Jan. 24.—John J. Huyler, the husband of the late Mrs. Clarissa J. Huyler, Luther R. Marsh's spirit medium, has brought suit to determine whether his wife left any estate. Although the medium left a recent will disposing of a large amount of property, the husband claims each executed wills 25 years ago bequeathing their individual estates to the other in case of death and that he never consented to a cancellation of contract. If Mr. Huyler is successful in his contentions and Mr. Marsh reclaims the insurance policies assigned to Mrs. Huyler, it is thought the entire estate may be wiped out.

Estimates on the One Between Boston and Narragansett Bay.

Boston, Mass., Jan. 24.—In the report of the harbor and land commissioners on the proposed canal between Boston harbor and Narragansett bay, by way of Weymouth, Brockton and Taunton, just sent to the legislature, the cost of the work is stated to be \$57,518,358, for a uniform depth of 25 feet, and a width of 150 feet at the bottom. The total length of the canal, as surveyed, would be 37.79 miles. Provision is made for fourteen locks and for a pumping system. BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac.

Vienna, Jan. 24.—It is stated that during Charles M. Schwab's visit to Buda Pest, he found a nephew there who proved his identity by documents, though the family likeness was sufficient to convince Schwab. Rudolph Schwab, the alleged nephew, was supporting a wife and family on \$5 a week. The American steel trust president has booked passages for the whole family to New York, where he promises to look after them.

Decision in Shippers' Compress Case Not Satisfactory.

ISSUE IS UNSETTLED.

The Way the Case Terminated Does Not Satisfy the State and the Defendant Believes the Main Question Still at Issue.

Austin, Jan. 24.—There are many conflicting opinions regarding the decision of Judge F. G. Morris of the fifty-third district court in the case of the state against the Shippers' Compress and Warehouse company.

Attorney General Bell is of the opinion that the decision decides the question to the effect that a corporation can buy a competing corporation for the purpose of suppressing competition, without violating the anti-trust law, and upon this point he appealed the case.

On the other hand, A. M. Carter of Fort Worth, representing the Shippers' stated that he did not think the decision was a victory for the defendant company, and it did not decide the question at issue.

THE STATE LOST.

The Shippers' Warehouse and Compress Company Win Their Case.

Austin, Jan. 24.—In the district court here Judge Frank Morris rendered a decision in favor of the defendant in the case of the State of Texas vs. the Shippers' Warehouse and Compress company, which was charged with violating the anti-trust law in the matter of buying up competing compresses. Attorney General C. K. Bell, who was present in court when the decision was rendered, gave notice of appeal in behalf of the state and the questions involved in the case will be tested in the higher courts.

MAY FORCE LANDING.

France to Use Warships to Bring Venezuelan Government to Terms.

Willemstad, Jan. 24.—In spite of protests made by the French consul at Caracas, President Castro has sustained the action of the Venezuelan authorities at La Guayra, who refused to permit M. Secretat, Jr., of Bordeaux, although the government had previously assured the consul the traveler might debark. It is claimed this incident makes it necessary for the French government to take steps necessary to cause French citizens to be respected, and it is believed the French cruisers, Tage and Suchet, now at Fort de France, will receive orders to go to La Guayra.

France Notified of the Refusal.

Paris, Jan. 24.—The French government has received a message from the French consul at Caracas announcing President Castro has absolutely refused to allow M. Secretat, Jr., to land in spite of the consul's repeated vigorous protests. The opinion prevails here that France will take steps to force his landing.

Six Hundred Houses Destroyed.

Mexico City, Jan. 24.—Another slight earthquake shook Chilpancingo Thursday and people ran about the streets in despair. But the earthquake did no harm. Mr. Wallace identified the check for \$25,000 payable to Albert T. Patrick as the one that had been presented to him by Short who said he came from Patrick. Witness said that in his opinion the signature to the check purporting to be Rice's, was not written by Rice.

INVESTIGATION BEGUN.

Interstate Commission Looking into the Condition of Roads.

Chicago, Jan. 24.—What is expected to be one of the most interesting sessions of the interstate commerce commission has ever held has begun here. The promised presence of J. J. Hill and E. H. Harriman, who are supposed to know all about the community of interests plan of railroads and who were expected to enlighten the commission on various points concerning the plan, brought a crowd of curious people, chiefly traction men, into the court. Harriman and Hill were not present, but are speeding towards Chicago and will go on the stand when they reach here. It is the expressed purpose of the commission to discover if possible what changes if any, have been created between the general public and the railroads by reason of the "associate management" of the latter. The commissioners also desire to find out if the carrying out of community of interest idea has affected the rate situation in a way contrary to law; or as claimed if it is likely to effect the stability of and non-discrimination in rates for which the commission has long battled.

CONTEST THE WILL.

Huyler Declares His Wife's Estate Belongs to Him by Assignment.

Middletown, N. Y., Jan. 24.—John J. Huyler, the husband of the late Mrs. Clarissa J. Huyler, Luther R. Marsh's spirit medium, has brought suit to determine whether his wife left any estate. Although the medium left a recent will disposing of a large amount of property, the husband claims each executed wills 25 years ago bequeathing their individual estates to the other in case of death and that he never consented to a cancellation of contract. If Mr. Huyler is successful in his contentions and Mr. Marsh reclaims the insurance policies assigned to Mrs. Huyler, it is thought the entire estate may be wiped out.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac.
